ABOUT ME

5th-year engineering student at EMSI, specializing in Digital Development & IS, with experience in developing and integrating AI technologies (OCR, LLM, AI chatbots). Seeking a 6-month PFE internship starting in February 2027. I wish to contribute to digital transformation projects through an approach focused on development, integration and problem solving. Awarded1st Prize in public speaking, C1 English proficiency

PROFESSIONAL EXPERIENCE

Web Developer & Data Automation **July – August 2026**

6SOLUTIONS

- Design and development of FactureIA, an invoice-processing automation platform for SMEs and accounting firms, with supplier and manager profiles, from requirements analysis to development
- Hybrid AI pipeline: OCR (Tesseract) with fallback to the Gemini API when the confidence score is insufficient, and an AI chatbot to assist users
- Benchmarked on 25 test invoices, reducing data-entry time from 8 min to 15 s per invoice
- Tech stack: Angular, Spring Boot / Java, MySQL, Tesseract, Gemini API

Full-Stack Developer **July – August 2025**

Guidya (in partnership with StartGate – UM6P)

- End-to-end design and development of a two-profile recruitment platform: candidates upload their CV and record an introduction video, then the recruiters receive both to pre-qualify them before the face-to-face interview
- Gathered user requirements, 15 candidate applications and 15 videos handled during testing
- Tech stack: React.js, Django, PostgreSQL

WeCreate Hackathon **January 2025**

AIESEC

- Functional definition and development of a digital credit and mobile payment platform facilitating access to financing, with online payment via Stripe
- Tech stack: React.js, Django, MongoDB, Stripe API

EDUCATION

Engineering Cycle in Digital Development & Information Systems - **EMSI Casablanca** **2022 – Present**

Baccalaureate in Physical Sciences and Chemistry - **Institut Essalam High School Casablanca** **2021 – 2022**

ACADEMIC PROJECTS

PointSmart

- Digital attendance system using a dynamic single-use QR code, renewed every 10s, allowing employees to check in within just 3 to 5 seconds, strengthening security and limiting fraud
  - Stack: React.js, Spring Boot, MySQL

ConnectHub

- Professional social network web application allowing users to create profiles, share posts and interact with other users
  - Stack: React.js, Django, Neo4j

LawFirm Management

- Desktop application for managing a law firm, handling client files, appointments and case tracking
  - Stack: Java, Hibernate

QuickQuiz

- Android quiz app supporting both tactile input and voice recognition with automated score calculation - Stack: Android Java

CERTIFICATIONS

- Oracle Fusion AI Agent Studio Certified Foundations Associate - **Oracle**
- Agile Project Management - **Google**
- Introduction to Big Data - **UC San Diego**
- React Basics and React Native - **Meta**
- Software Design and Project Management - **HKUST**

SKILLS

- **Frontend :** JavaScript (React.js), Angular, HTML, CSS
- **Backend :** Java (Spring, Hibernate), PHP (Symfony), ASP.NET Core, Node.js, C, C++, Python (Django)
- **Databases :** MySQL, PostgreSQL, SQL Server, Oracle 19c, MongoDB, Cassandra, Neo4j, Firebase
- **AI & Data :** LLM, Generative AI, OCR, Gemini API
- **Mobile & Cross-Platform Development :** React Native, Android (Java, Kotlin), Flutter
- **Design & Modeling :** UML, Figma
- **Soft Skills :** Curiosity, Analytical mindset, Motivation, Public speaking, Leadership, Autonomy, Creativity, Teamwork

EXTRACURRICULAR ACTIVITIES & ADDITIONAL INFORMATION

- **Languages:** French, English (fluent) **- ETC Club** Presentations and public speaking **- Enactus** Participation in student association and entrepreneurial activities **- EMSI** Student Ambassador
